## **Social Realism Art As A Weapon David Shapiro:**

**Social Realism: Art as a Weapon** David Shapiro, 1973 In an introductory essay David Shapiro appraises the roots and achievements of Social Realism providing an overall framework within which the source material that follows can be understood Was Social Realism only a response to the economic collapse of the 1930s or was it part of a continuing American art tradition A primary selection of documents ranging from Hugo Gellert's exultant *We Capture the Walls* 1932 to Oliver Larkin's retrospective *Common Cause* 1949 fixes the period's social and aesthetic background It includes spirited contributions by Diego Rivera Meyer Schapiro Stuart Davis and others A second selection of documents focuses on five major Social Realists Philip Evergood William Gropper Jacob Lawrence Jack Levine and Ben Shahn for closer study This section includes individual biographical outlines personal statements by the artists and representative critical analyses of their work The book concludes with an especially compiled list of major Social Realists an extended bibliography and a detailed index Includes ten reproductions From book jacket [The Social and the Real: Political Art of the 1930s in the Western Hemisphere](#), 2006 [Rethinking Social Realism](#) Stacy I. Morgan, 2004 The social realist movement with its focus on proletarian themes and its strong ties to New Deal programs and leftist politics has long been considered a depression era phenomenon that ended with the start of World War II This study explores how and why African American writers and visual artists sustained an engagement with the themes and aesthetics of social realism into the early cold war era far longer than a majority of their white counterparts Stacy I Morgan recalls the social realist atmosphere in which certain African American artists and writers were immersed and shows how black social realism served alternately to question the existing order instill race pride and build interracial working class coalitions Morgan discusses among others such figures as Charles White John Wilson Frank Marshall Davis Willard Motley Langston Hughes Sterling Brown Elizabeth Catlett and Hale Woodruff

**Pollock and After** Francis Frascina, 2000 This revised edition features ten new articles and is fully updated to take account of new critical approaches to post war American art **The Social Life of Art** Peter Stupples, Jane Venis, 2014-11-10 This study examines not only the objects and processes that make up the artworlds of human history but also the social and cultural circumstances the historicised contexts that bring about their making frame their functioning inform their properties and influence their effects both at the time of their creation and throughout their subsequent biographies In the short span that art has played a part in human life one may conceive of time as a social river with a strong current towards the capricious mainstream and eddies and quiet pools near the banks The current will flow faster in spate and slower in drought But it will be forever in motion It will be unpredictable Nothing will stop its inexorable force Art runs in that social river subject to the flow and chance of time **Border Crossings** Henry A. Giroux, 1992 Schooling and cultural politics Cultural workers and cultural pedagogy **How New York Stole the Idea of Modern Art** Serge Guilbaut, 2020-09-15 A provocative interpretation of the political and cultural history of the early cold war years By insisting

that art even art of the avant garde is part of the general culture not autonomous or above it he forces us to think differently not only about art and art history but about society itself New York Times Book Review **American Gothic** Steven Biel,2005 Describes Grant Wood s portrait of Iowa farmers and documents how the piece has represented midwestern Puritanism hard working endurance and the often parodied American heartland *The Flight Into Inwardness* Timothy J.
